MAY FUN FACTS!

- +The name *May* is the modern-day English adaption of the Latin word *Maius*, which has origins going back to the time of the ancient Greeks. They named the month of May (or *Maius*) after the Greek goddess of growth.
- +Every year there is a particular meteor shower in May called the Eta Aquariids meteor shower. Discovered in 1870, this meteor shower passes by Earth between April 19 and May 28. It's easiest to view it from the equatorial regions of the world and can be seen passing by just before dawn.
- +The Empire State Building opened its doors on May 1, 1931. At the point of its construction, it held the record for being the tallest building in the world. Many other sky-high constructions have since dwarfed it, but it's still an awe-inspiring feature of the New York cityscape!
- +May weddings: unlucky or not? It used to be thought that getting married in May was extremely unlucky. The Cornish have a superstition that it is bad luck to purchase a new broom in May. There must have been a very excellent reason not to be married in one of the most beautiful months of the year, yet the original origin of the proverb is unknown.
- +Notable Figures Born in May: Queen Victoria, Mark Zuckerberg, Clint Eastwood, Karl Marx, Wes Anderson, Queen Victoria, John F. Kennedy, and Catherine the Great are just a few prominent persons that were born in May!
