FACTS YOU MAY NOT KNOW ABOUT THE FOURTH OF JULY

★ Betsy Ross sewed the first American flag in May or June of 1776, after 3 members (George Washington, Robert Morris, and George Ross) of a secret committee from the Continental Congress met with her in her home.

★ The stars on the original American flag were in a circle so all the colonies would appear equal.

★ On July 5, 1776, copies of the Declaration of Independence were handed out and on July 6, *The Pennsylvania Evening Post* became the first newspaper to print the document.

★ The Liberty Bell rang from the tower of Independence Hall on July 8, 1776, and citizens gathered for the first public reading of the Declaration of Independence by Colonel John Nixon.

★ Thomas Jefferson began the tradition of a public reception at the White House to celebrate the Fourth of July in 1801.

★ Presidents John Adams, Thomas Jefferson and James Monroe all died on the Fourth. Adams and Jefferson died on the same day within hours of each other in 1826.

★ The names of the signers of the Declaration of Independence were withheld from the public for more than six months to protect the signers. If independence had not been achieved, the treasonable act of the signers would have, by law, resulted in their deaths.

★ In 1776, there were 2.5 million people living in the new nation. Today there are over 318 million.

★ There are more than 30 towns nationwide that have the word “Liberty” in their names.

★ Approximately 150 million hotdogs are consumed on the Fourth of July.

★ Around \$675 million dollars will be spent by consumers for fireworks on the Fourth of July.
