ADVANCED DIRECTIVES

Pennsylvania Orders for Life-Sustaining Treatment (POLST) is a medical order that gives residents and their families/health care surrogates control over their end-of-life-care. SpiriTrust Lutheran recognizes the POLST in its Personal Care Residence communities. This order follows residents as they move through the continuum of care.

The use of the form is available for persons who have had advanced chronic progressive illness, those who might die in the next year or anyone wishing to further define their preferences of care.

The form is used to either limit medical interventions or to clarify a request for all medically indicated treatments including resuscitation.

The POLST form is recognized but is not mandatory in SpiriTrust Lutheran Personal Care communities.

Resident's Primary Care Physician will oversee education, completions and revisions of POLST if present. The form accompanies the resident, and is transferable and applicable across care settings.

ATTENDING PHYSICIAN

Residents have the right to choose their personal physician. If needed, the nursing team members can provide a list of physicians in the area.
